

NAME _____

Dear Parents,

Your child is starting to learn about numbers and arithmetic. We are using **The Number People Mathematics Program**. It is very successful. It makes learning easy and exciting.

Your child will bring home Master Sheets from time to time. We know you will enjoy talking about these pages.

Today, we met Mr. 1. He is a scientist. He works in a laboratory. As you would expect, he has only one of everything: a one-legged table, a one-legged chair, one microscope, one test tube and one clock with one hand.

Sincerely yours,

This is Number Worker _____
